DETAILED ACTION

Response to Arguments

1. Applicant's arguments and declaration filed 6/6/2005, with respect to claims 23-26 and 50-55 under 103(a) rejection have been fully considered and are persuasive. The Final rejection has been withdrawn.

Allowable Subject Matter

2. Claims 23-60 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Applicants' arguments and declaration with respect to the titanium layer 130 in the applicant's admitted prior art are persuasive. Accordingly, the rejection has been withdrawn.

In addition, the prior art of record, either alone or combination, does not teach or suggest reacting cobalt with silicon of the substrate to form a cobalt silicide that contacts remaining material of the substrate; forming a pn junction with each source/drain region, the floating gate extending partially over at least one of the source/drain regions; and forming a select gate overlying the substrate lateral to the floating gate.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
